

# **WIN MORE DRIVERS, INCREASE PROFITS, AND GROW WITH DEMAND**

The proven software for network operators

ADVERTISE YOUR CHARGERS TO  
**MILLIONS OF DRIVERS...**

# Across our range of **PARTNER NETWORKS**

and many more...

# SCALE FAST TO MEET DEMAND

BY ADDING SIX TIMES THE NUMBER OF CHARGERS TO YOUR SITES

Use in-built features to maximise the amount of power available for EV charging on your sites while avoiding costly upgrades.

Expanding from a single exec site to 45 locations across the UK

Doubled network size in just three months on our platform

# MAXIMISE SITE PROFITABILITY WITH CUTTING EDGE FEATURES

Access millions of drivers, and grow existing sites using a range of compatible hardware brands to prolong your network's lifespan.

[Book a demo](#) 

## Reach millions of drivers

Advertise your existing chargers to drivers on Europe's most popular apps.

## Install six times the chargers on-site

Use in-built dynamic load balancing to maximise your site's potential, and avoid costly upgrades.

## Ensure network reliability

Manage uptime from a single place, with 'click to fix' remote maintenance and remote diagnostics to keep chargers working.

## Mix and match charger brands

Choose from our huge range of OCPP compatible charger brands to prolong your network's lifespan.

## Provide a range of easy payment options

Including contactless terminals and fuel cards for the best customer experience.

## Grow across borders to 100x the size

By using scalable servers that work across multiple languages and currencies.

## Access white label solutions

Employ a trusted provider to host a bespoke management system and app with your own branding.

## Provide 24/7 Support

Offset operational drain and resolving driver queries quickly and easily.

# MONETISING YOUR NETWORK: GOVERNMENT GUIDELINES

Our software and services help operators deliver reliable, driver-recommended networks ready to grow. For us that means providing industry-leading features to help you meet Government and State regulations for public networks including 99% reliability and more.

- View available chargers without paying or being tied to T&Cs ✓
- Roam across charging networks with single app or RFID card ✓
- Pricing tariff clearly shown at the start of a charge ✓
- Contactless bank card payment including Google and Apple Pay ✓
- 24/7 Helpline advertised on all chargers for drivers in difficulty ✓
- Fault alerts and 'click to fix' maintenance supports 99% reliability ✓

\*Drivers can sign up, start a charge, and pay in a fully realized Welsh language App
